

Kalawao County, HI

Risk-assessment baseline packet

County FIPS: 15005 Release: 2026-10 Data as of: 2026-09-30 Storm Events data through: 2026-06-30

Hazard Plain is an independent product built from public federal data. It is not a FEMA document and is not reviewed or endorsed by FEMA or any state agency.

Summary

Plan status as of 2026-09-30: No county-level plan row in FEMA data.

Highest expected annual loss (FEMA National Risk Index, modeled total; see B1-a): Inland Flooding (\$154,513 a year), Tsunami (\$55,790) and Earthquake (\$41,212).

The tables that follow are organized by the items of FEMA's Local Mitigation Plan Review Tool, Element B (B1-a to B2-c); each heading says which item its tables support.

TERMS USED

EAL: expected annual loss: FEMA's modeled average yearly loss from a hazard.

NRI: FEMA's National Risk Index (version 1.20, December 2025).

NFIP: National Flood Insurance Program.

RL, SRL: repetitive loss and severe repetitive loss: flood-insured properties with repeated claims (definitions in B2-c).

FMA, HMGP: Flood Mitigation Assistance and Hazard Mitigation Grant Program, FEMA mitigation grants.

PA: FEMA Public Assistance: disaster aid to governments and some nonprofits.

Zone-level: NOAA logged the event for a National Weather Service forecast zone, which may include parts of neighboring counties.

County-coded: NOAA logged the event to this county.

FIPS: the federal code for a place; 15005 is this area.

D0 to D4: U.S. Drought Monitor categories, from abnormally dry (D0) to exceptional drought (D4).

F/EF, EFU: Fujita and Enhanced Fujita tornado ratings; EFU is an unrated tornado.

kt, CONUS: knots (1 kt is about 1.15 mph); the contiguous United States.

CFR: Code of Federal Regulations.

A4-a, E1-a: other items of FEMA's Local Mitigation Plan Review Tool (sources, and changes since the last plan).

Dollars: nominal (as reported, labeled with the year), not adjusted for inflation.

CONTENTS

Jurisdiction	Type	Status	Plan	Approved	Expires			

No rows for this unit.

No jurisdictions listed in FEMA plan data for this unit.

State plan status and tribal plans in this state: see the state page.

Supports FEMA checklist item B1-a: hazard identification

Hazards NRI does not cover (local data needed)

- dam failure (incl. upstream dams)
- levee failure
- flash flood as its own subtype
- ice jams
- debris flows
- erosion (riverine and coastal)
- land subsidence and sinkholes
- expansive soils

The 18 National Risk Index hazards, ranked by expected annual loss (EAL)

Sources: 5, 6

Rank by EAL	Hazard	NRI risk rating	EAL rating	EAL buildings modeled dollars per year	EAL agriculture modeled dollars per year	Cost of expected deaths and injuries FEMA's dollar value per year, not property damage	EAL total (see note) modeled dollars per year	Storm Events records, 1996 to 2026-06-30 count	Storm Events coverage note
1	Inland Flooding	Very Low	Very Low	\$154,502	\$0	\$11	\$154,513	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
2	Tsunami	Very Low	Very Low	\$55,790	n/a	\$0	\$55,790	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
3	Earthquake	Very Low	Very Low	\$36,647	n/a	\$4,565	\$41,212		Storm Events does not record earthquakes.
4	Wildfire	Very Low	Very Low	\$5,741	\$0	\$47	\$5,788	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
5	Hurricane	Very Low	Very Low	\$1,619	\$0	\$31	\$1,650	0	Declared 1 time; no Storm Events record of this type. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
6	Lightning	Very Low	Very Low	\$730	n/a	\$507	\$1,237	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
7	Tornado	Very Low	Very Low	\$97	\$0	\$7	\$104	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.

Rank by EAL	Hazard	NRI risk rating	EAL rating	EAL buildings <i>modeled dollars per year</i>	EAL agriculture <i>modeled dollars per year</i>	Cost of expected deaths and injuries <i>FEMA's dollar value per year, not property damage</i>	EAL total (see note) <i>modeled dollars per year</i>	Storm Events records, 1996 to 2026-06-30 <i>count</i>	Storm Events coverage note
8	Coastal Flooding	Very Low	Very Low	\$92	n/a	under \$1	\$92	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
9	Hail	Very Low	Very Low	\$15	\$0	\$1	\$16	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
10	Landslide	Very Low	Very Low	\$1	n/a	under \$1	\$1	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
11	Strong Wind	Very Low	Very Low	under \$1	\$0	under \$1	under \$1	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
12	Volcanic Activity	Very Low	Very Low	under \$1	n/a	under \$1	under \$1	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
13	Cold Wave	No Rating	No Expected Annual Losses	\$0	\$0	\$0	\$0	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
14	Drought	No Rating	No Expected Annual Losses	n/a	\$0	n/a	\$0	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
15	Heat Wave	No Rating	No Expected Annual Losses	\$0	\$0	\$0	\$0	0	No recorded events in Storm Events since 1996 (data through 2026-06-30). The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.

Total = buildings + agriculture + population equivalence; FEMA values each expected death (or 10 injuries) at \$13.7 million (2024 dollars).

NRI risk rating combines expected annual loss with social vulnerability and community resilience; EAL rating rates expected annual loss alone. Both compare this county with all U.S. counties.

Local data needed: state and local tsunami, wildfire, lightning, landslide and volcanic activity records (Storm Events records these hazards only in part).

Not applicable to this county per NRI, with no federal declaration and no Storm Events record since 1996: avalanche, ice storm and winter weather. That is the evidence for leaving them out of the plan.

The state hazard mitigation plan also lists hazards for this county; FEMA asks the plan to explain any hazard it leaves out.

Supports FEMA checklist item B1-b: hazard location

Affects the whole county (national data give no location within it): Cold Wave, Drought, Hail, Heat Wave, Lightning and Strong Wind.

Coastal Flooding and Inland Flooding: The FEMA Flood Insurance Rate Map (FIRM) is the required location source for flooding. See the FEMA Flood Map Service Center (<https://msc.fema.gov>) for this county.

NRI rating of the county's single census tract

Source: 5

Hazard	Census tract <i>NRI risk rating, score 0 to 100</i>
Earthquake	tract 319 (Relatively Low, 61.3)
Hurricane	tract 319 (Very Low, 39.9)
Landslide	tract 319 (Very Low, 37.3)
Tornado	tract 319 (Very Low, 1.1)
Tsunami	tract 319 (Relatively Low, 66.7)
Volcanic Activity	tract 319 (Very Low, 42.2)
Wildfire	tract 319 (Relatively Low, 81.7)

A tract number is the Census tract number (for example 319 is Census Tract 319). FEMA's Resilience Analysis and Planning Tool maps the National Risk Index for every tract: <https://www.fema.gov/emergency-managers/practitioners/resilience-analysis-and-planning-tool>

Supports FEMA checklist item B1-c: hazard extent

Extent: scale, observed range and worst recorded event per hazard

Sources: 6, 7

Hazard	Scale	Records <i>count and years</i>	Observed range	Worst recorded event	Most damaging (when different)	How it applies to jurisdictions	Note
Coastal Flood, Storm Surge/ Tide	none in data (flood depth: FIRM)	0					Flood depth: see the FEMA Flood Insurance Rate Map.
Cold/Wind Chill, Extreme Cold/Wind Chill	wind chill	0					
Frost/Freeze (outside NRI's Cold Wave definition)	crop damage	0					

Hazard	Scale	Records <i>count and years</i>	Observed range	Worst recorded event	Most damaging (when different)	How it applies to jurisdictions	Note
Drought	U.S. Drought Monitor scale (D0 to D4)	0					Storm Events enters a drought at D2 or worse east of the Rockies and D3 or worse from the Rockies west (NWS Instruction 10-1605); NRI drought counts D3 and D4 only.
Earthquake	Modified Mercalli (local data)	0					Storm Events does not record earthquakes; the USGS earthquake catalog is the source.
Hail	hail size (inches)	0					
Excessive Heat, Heat	heat index (in event narratives)	0					
Hurricane, Tropical Storm, Tropical Depression	Saffir-Simpson	0					Storm Events files every zone of a storm's episode under the storm's type; flooding from the storm is filed as Flood or Flash Flood records.
Flash Flood, Flood, Lakeshore Flood	damage and flood days (flood depth: FIRM)	0					Flood depth: see the FEMA Flood Insurance Rate Map. Storm Events damage is often \$0 or blank for floods, major ones included; FEMA Public Assistance by declaration (B1-d) shows which floods cost the most.
Debris Flow	none (count and damage only)	0					
Lightning	annualized frequency (the measure FEMA's Local Mitigation Planning Handbook names)	0					Storm Events lists lightning with damage or casualties.
High Wind and Strong Wind (outside NRI's Strong Wind definition)	wind speed (kt and mph)	0					
Thunderstorm Wind	wind speed (kt and mph)	0					
Tornado	Enhanced Fujita (Fujita before Feb 2007)	0					Before 1996 a tornado is listed once, under the county where it began, with its whole path's rating and length; from 1996 on, each county lists its own segment. Length is not used to rank tornadoes (see Methods).
Tsunami	none (count and damage only)	0					

Hazard	Scale	Records	Observed range	Worst recorded event	Most damaging (when different)	How it applies to jurisdictions	Note
		<i>count and years</i>					
Volcanic Ash, Volcanic Ashfall	Volcanic Explosivity Index (local data)	0					
Wildfire	acres burned (local data)	0					

In event narratives only (local data needed): wind chill, temperature, heat index and acres burned; any physical measure of debris flow, lightning, tsunami and volcanic ash, volcanic ashfall.

Storm Events records are more complete after 1996; before 1996 only Tornado (from 1950), Hail and Thunderstorm Wind (from 1955) exist. Zone-level records from zones that no NWS zone-county file places in this county (mostly before 2020) are not counted here (the Methods page explains the zone matching).

Dollars are nominal (as reported), labeled with the year; not adjusted for inflation.

Supports FEMA checklist item B1-d: previous occurrences

Federal declarations for this county: 2 declarations covering 1 separate hazard incident counted in this packet (declarations for the same incident count once; non-natural and evacuation-only declarations are not counted).

No county-level plan row in FEMA data, so there is no approval date to count from.

Federal disaster declarations for this county

Sources: 1, 2, 3

Declared	Incident began	FEMA number	Type	Title	Mapped hazard	County Public Assistance
						<i>federal share obligated, nominal dollars</i>
2020-04-01	2020-01-20	DR-4510-HI	Major disaster	COVID-19 Pandemic	Non-natural, not counted	no Public Assistance recorded
1992-09-12	1992-09-11	DR-961-HI	Major disaster	Hurricane Iniki	Hurricane	no Public Assistance recorded

County Public Assistance: applicants the FEMA record places in this county, including any state agencies FEMA files there; statewide rows are listed on the state page; federal share obligated, nominal dollars.

Statewide declarations

Source: 2

Declared	Incident began	FEMA number	Type	Title	Mapped hazard
1963-04-24	1963-04-24	DR-152-HI	Major disaster	Heavy Rains & Flooding	Inland Flooding
1960-05-25	1960-05-25	DR-101-HI	Major disaster	Tidal Waves	Tsunami
1960-01-21	1960-01-21	DR-96-HI	Major disaster	Earthquakes & Volcanic Disturbances	Earthquake (primary); also designated: Volcanic Activity
1959-08-16	1959-08-16	DR-94-HI	Major disaster	Hurricane Dot	Hurricane (primary); also designated: Inland Flooding
1957-03-16	1957-03-16	DR-71-HI	Major disaster	Tidal Wave	Tsunami
1955-04-01	1955-04-01	DR-32-HI	Major disaster	Volcano	Volcanic Activity

FEMA recorded these with designated area Statewide and no county, so they are listed on every county page in the state and not counted with county rows. Local data needed: whether each one affected this county.

4 Fire Management declarations (1983-03-04 to 1998-08-25) FEMA filed as Statewide with no county; each names one local fire. Listed on the state page.

Previous occurrences by hazard, with explicit no-event rows

Sources: 2, 6, 7

Hazard	Storm Events records, all years on file <i>(years in the Period column)</i>	Since plan approval records	In the 12 months before plan approval records	Last 5 years records	Declared incidents, all years <i>separate disasters</i>	Declared since approval <i>separate disasters</i>	Period	Statement
Coastal Flooding	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Cold Wave	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Drought	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Earthquake	0			0	0			Storm Events does not record earthquakes; the USGS earthquake catalog is the source.
Hail	0			0	0		1955 to 2026-06-30	No recorded events, 1955 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Heat Wave	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Hurricane	0			0	1		1996 to 2026-06-30	No Storm Events records of this type; 1 federal declared incident (see declarations table)
Inland Flooding	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Landslide	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Lightning	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Strong Wind	0			0	0		1955 to 2026-06-30	No recorded events, 1955 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.

Hazard	Storm Events records, all years on file <i>(years in the Period column)</i>	Since plan approval records	In the 12 months before plan approval records	Last 5 years records	Declared incidents, all years <i>separate disasters</i>	Declared since approval <i>separate disasters</i>	Period	Statement
Tornado	0			0	0		1950 to 2026-06-30	No recorded events, 1950 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Tsunami	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Volcanic Activity	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Wildfire	0			0	0		1996 to 2026-06-30	No recorded events, 1996 to 2026-06-30, NOAA NCEI Storm Events. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.

Notable Storm Events records

Sources: 1, 6, 7

Date	Event type	Magnitude or extent	Damage <i>nominal dollars</i>	Deaths, injuries <i>direct only</i>	Location	Flags	Why listed
------	------------	---------------------	----------------------------------	--	----------	-------	------------

No rows for this unit.

The full list is in the Excel file, sheet "B1-d Storm Events history" (0 rows).

Location is the place NOAA recorded, as written in its data; it need not be a jurisdiction in this plan.

Local data needed: state-declared emergencies, from your state emergency management agency (federal data do not include them).

FEMA's declaration data list no tribal or special-area declarations for this state.

Supports FEMA checklist item B1-e: probability of future events

Probability: FEMA annualized frequency and descriptor per hazard

Sources: 5, 6

Hazard	FEMA annualized frequency (modeled) <i>unit per row</i>	Unit	In plain terms	Descriptor	Descriptor basis	NRI events or days in its record period (hail, wind and tornado are area-weighted, so can be fractional)	NRI period	Location	Note
Coastal Flooding	0.325	events per year at a location (modeled)	about 0.33 per year at a given location in the county		Storm Events records in 0 of 30 years, 1996 to 2025 (0%)	not shown	modeled	see B1-f	No descriptor: no Storm Events record 1996 to 2025. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Cold Wave	0	event-days per year	none modeled		Storm Events event-days in 0 of 30 years, 1996 to 2025 (0%)	0	2005-11-12 to 2024-11-12 (19 years)	countywide	No Storm Events cold wave record, 1996 to 2025. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Drought	18	event-days per year	about 18 days per year		Storm Events event-days in 0 of 30 years, 1996 to 2025 (0%)	455	2000 to 2025 (25.25 years; D3 and D4 only)	countywide	No Storm Events drought record, 1996 to 2025. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Earthquake	0.0139	annual probability at a location	chance a given location in the county has at least minor-damage shaking in a year: 1.39%			not shown	modeled	see B1-f	No descriptor (Storm Events does not record earthquakes).
Hail	0.0068	events per year	about 1 in 147 years	Unlikely	FEMA annualized frequency (modeled)	0.4 (modeled)	1986 to 2023 (38 years)	countywide	
Heat Wave	0	event-days per year	none modeled		Storm Events event-days in 0 of 30 years, 1996 to 2025 (0%)	0	2005-11-12 to 2024-11-12 (19 years)	countywide	No Storm Events heat wave record, 1996 to 2025. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Hurricane	0.066	events per year	about 1 in 15 years	Possible	FEMA annualized frequency (modeled)	6	1949 to 2024 (Pacific)	see B1-f	NRI counts hurricane and tropical storm tracks passing within storm-force wind range; federal declarations are in B1-d.

Hazard	FEMA annualized frequency (modeled) <i>unit per row</i>	Unit	In plain terms	Descriptor	Descriptor basis	NRI events or days in its record period (hail, wind and tornado are area-weighted, so can be fractional)	NRI period	Location	Note
Inland Flooding	0.01	event-days per year	about 0.01 days per year		Storm Events event-days in 0 of 30 years, 1996 to 2025 (0%)	0	1996 to 2023 (28 years)	see B1-f	No Storm Events inland flooding record, 1996 to 2025. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Landslide	0.00637	events per year (modeled)	about 1 in 157 years	Unlikely	FEMA annualized frequency (modeled)	not shown	modeled	see B1-f	
Lightning	42.5	days per year with a strike	about 42.5 days per year	Highly likely	FEMA annualized frequency (modeled)	not shown	1995 to 2023 (29 years; CONUS)	countywide	
Strong Wind	0.00173	events per year	about 1 in 578 years	Unlikely	FEMA annualized frequency (modeled)	1	1986 to 2023 (38 years)	countywide	
Tornado	0.000578	events per year	about 1 in 1,731 years	Unlikely	FEMA annualized frequency (modeled)	not shown	1950 to 2023 (EF2+); 1986 to 2023 (EF0-1)	see B1-f	
Tsunami	0.664	annual probability at the most exposed location (used in place of a county value)	chance at the county's most exposed location in a year: 66.4%		Storm Events records in 0 of 30 years, 1996 to 2025 (0%)	not shown	modeled	see B1-f	No descriptor: no Storm Events record 1996 to 2025. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.
Volcanic Activity	0.001	annual probability	about 1 in 1,000 years	Unlikely	FEMA annualized frequency (modeled)	not shown	modeled	see B1-f	
Wildfire	0.00394	annual probability at a location	chance a given location in the county burns in a year: 0.394%		Storm Events records in 0 of 30 years, 1996 to 2025 (0%)	not shown	modeled	see B1-f	No descriptor: no Storm Events record 1996 to 2025. The NWS zone-county file lists no forecast zone for this county, so zone-level Storm Events records (winter weather, heat, cold, drought, high wind and others) are never placed here; a zero here means none placed, not that none occurred.

FEMA annualized frequency (modeled) is the National Risk Index v1.20 (December 2025) estimate of how often a hazard affects this county in a year; it is not recorded events divided by years, and its unit differs by hazard (events, event-days, or days with a lightning strike per year). For earthquake, wildfire, coastal flooding and tsunami the value is the chance (or number of events) at a location in the county, not across the county, so no "1 in N years" is given and the descriptor comes from Storm Events where it has a record (none for earthquake). The Methods page gives each hazard's method, from FEMA's National Risk Index Technical Documentation v1.20.

Descriptor scale used in this packet (defined per unit)

Sources: 5, 6

Unit	Descriptor	Definition
events per year	Highly likely	1 or more per year
events per year	Likely	about once in 1 to 10 years
events per year	Possible	about once in 10 to 100 years
events per year	Unlikely	less than once in 100 years
annual probability	Likely	10% to under 100% chance in a given year
annual probability	Possible	1% to under 10% chance in a given year
annual probability	Unlikely	under 1% chance in a given year
event-days (share of years)	Highly likely	event-days recorded in 90% or more of years
event-days (share of years)	Likely	event-days recorded in 10% to under 90% of years
event-days (share of years)	Possible	event-days recorded in some years but under 10% of years
lightning strike-days	Highly likely	cloud-to-ground strikes on 1 or more days per year

Intensity bands: historical frequency (Storm Events)

Source: 6

Hazard	Band	Years	Events <i>county-coded records</i>	Years in period	Events per year <i>events / years</i>
Hail	1.00-1.99 in	1996 to 2025	0	30	0
Hail	2.00 in+	1996 to 2025	0	30	0
Thunderstorm Wind (counted as NRI Strong Wind)	50-64 kt	1996 to 2025	0	30	0
Thunderstorm Wind (counted as NRI Strong Wind)	65 kt+	1996 to 2025	0	30	0
Thunderstorm Wind (counted as NRI Strong Wind)	unmeasured or below 50 kt	1996 to 2025	0	30	0
Tornado	EF0-1	1996 to 2025	0	30	0
Tornado	EF2-3	1996 to 2025	0	30	0
Tornado	EF4-5	1996 to 2025	0	30	0
Tornado	unrated (EFU)	1996 to 2025	0	30	0

The bands show how often events of each severity were recorded in this county, to profile how severe events have been (FEMA's probability item asks for the range of intensities).

Hail smaller than 1 inch is not counted: on 2010-01-05 the National Weather Service raised its severe-hail threshold from 3/4 inch to 1 inch, so smaller reports became less common after 2009 (NWS Service Change Notice 09-52). NRI hail frequency uses a 0.75 inch threshold.

Optional: future conditions. Not a required item in the 2025 FEMA Local Mitigation Planning Policy Guide; some states ask for it. The federal Climate Mapping for Resilience and Adaptation (CMRA) site gives county exposure to future climate conditions (<https://resilience.climate.gov/>).

Supports FEMA checklist item B1-f: hazards that vary across jurisdictions

NRI risk score of the county's single census tract

Source: 5

Hazard	Tract score	Rating
	NRI score, 0 to 100	
Coastal Flooding	73.1	Very Low
Cold Wave		No Rating
Drought		No Rating
Earthquake	61.3	Relatively Low
Hail	1.1	Very Low
Heat Wave		No Rating
Hurricane	39.9	Very Low
Inland Flooding	7.7	Very Low
Landslide	37.3	Very Low
Lightning	9.8	Very Low
Strong Wind	0.2	Very Low
Tornado	1.1	Very Low
Tsunami	66.7	Relatively Low
Volcanic Activity	42.2	Very Low
Wildfire	81.7	Relatively Low

The score ranks a tract against all U.S. tracts (100 = highest). The rating is FEMA's category for the tract's risk value, computed differently, so the two can disagree.

Each jurisdiction (starting figures from federal data)

Sources: 1, 3, 4, 6

Jurisdiction	Type	Plan status	Repetitive loss	Public Assistance to this jurisdiction	Event records naming this place	Notes
			FMA RL and SRL (44 CFR 77.2); repeat-flood, any definition	FEMA records matched by applicant name; federal share obligated, nominal dollars	all years; since its plan	

No city, town, township or county rows in FEMA plan data for this unit; same as county.

Supports FEMA checklist items B2-a and B2-b: vulnerability and potential impacts

Local data needed

The table below gives county-level starting figures; the plan describes impacts for each jurisdiction and its own assets.

No county-level plan row in FEMA data, so there is no approval date to count from.

- Critical facilities and lifelines per hazard
- A problem statement per jurisdiction per hazard
- Changes in development in hazard-prone areas since the last approval, or a statement of none (E1-a)
- Future assets

County-level starter: exposure, expected annual loss and damage since the plan

Sources: 1, 2, 3, 5, 6, 7

Hazard	Building exposure <i>modeled dollars</i>	Agriculture exposure <i>modeled dollars</i>	Population exposed <i>people</i>	EAL buildings <i>modeled dollars per year</i>	EAL agriculture <i>modeled dollars per year</i>	Cost of expected deaths and injuries <i>FEMA's dollar value per year, not property damage</i>	EAL as % of exposure <i>buildings; agriculture where noted</i>	Storm Events damage since plan <i>county-coded records, property plus crops, nominal dollars</i>	Zone-level damage since plan <i>property plus crops, reported for the zone</i>	Public Assistance since plan <i>nominal dollars; see note</i>	Note
Coastal Flooding	\$58,626,155	n/a	39	\$92	n/a	under \$1	0.000157%				
Cold Wave	\$0	\$0	0	\$0	\$0	\$0					building exposure is 0 in NRI
Drought	n/a	\$0	n/a	n/a	\$0	n/a					agriculture exposure is 0 in NRI
Earthquake	\$141,635,416	n/a	82	\$36,647	n/a	\$4,565	0.0259%				
Hail	\$92,527,450	\$0	82	\$15	\$0	\$1	under 0.0001%				
Heat Wave	\$0	\$0	0	\$0	\$0	\$0					building exposure is 0 in NRI
Hurricane	\$92,527,450	\$0	82	\$1,619	\$0	\$31	0.00175%				
Inland Flooding	\$92,505,383	\$0	39	\$154,502	\$0	\$11	n/a (see note)				NRI counts the full building value of any census block with some flood loss; this is not the value of buildings in the floodplain. Use local FIRM overlays for B2-a/B2-b.
Landslide	\$6,474,109	n/a	5	\$1	n/a	under \$1	under 0.0001%				
Lightning	\$92,527,450	n/a	82	\$730	n/a	\$507	0.000789%				
Strong Wind	\$92,527,450	\$0	82	under \$1	\$0	under \$1	under 0.0001%				
Tornado	\$92,527,450	\$0	82	\$97	\$0	\$7	0.000105%				
Tsunami	\$114,142,850	n/a	36	\$55,790	n/a	\$0	0.0489%				

Hazard	Building exposure <i>modeled dollars</i>	Agriculture exposure <i>modeled dollars</i>	Population exposed <i>people</i>	EAL buildings <i>modeled dollars per year</i>	EAL agriculture <i>modeled dollars per year</i>	Cost of expected deaths and injuries <i>FEMA's dollar value per year, not property damage</i>	EAL as % of exposure <i>buildings; agriculture where noted</i>	Storm Events damage since plan <i>county-coded records, property plus crops, nominal dollars</i>	Zone-level damage since plan <i>property plus crops, reported for the zone</i>	Public Assistance since plan <i>nominal dollars; see note</i>	Note
Volcanic Activity	\$92,527,450	n/a	82	under \$1	n/a	under \$1	under 0.0001%				
Wildfire	\$19,273,391	\$0	19	\$5,741	\$0	\$47	0.0298%				

Totals since the plan: not available. No county-level plan row in FEMA data, so there is no approval date to count from.

FEMA does not split Public Assistance by hazard. A declaration mapped to several hazards is listed under each of them with its full amount, so the per-hazard column does not add up to the total; the unit total counts each declaration once.

NRI computes earthquake exposure on its own basis, so it exceeds the county building value in B2-a.

Supports FEMA checklist item B2-a: vulnerability (county context)

County context

Source: 5

Measure	Value
Population	82
Building value (total, not at risk)	\$92,527,450
Agriculture value (total, not at risk)	\$0
NRI risk rating (all hazards)	Very Low
Expected annual loss, buildings and agriculture, all hazards	\$255,235
Expected annual loss, population equivalence, all hazards (NRI values each statistical life at \$13.7M; a modeled value of expected deaths and injuries, not property damage)	\$5,169
Social vulnerability rating	Relatively High
Community resilience rating	Very High
NRI version	December 2025

FEMA's all-hazard expected annual loss adds buildings, agriculture and population equivalence; this table gives the property part and the population-equivalence part as separate rows.

Social vulnerability: higher means people are more likely to be harmed and slower to recover. Community resilience: lower means the community is less able to recover. High social vulnerability and low resilience both raise the NRI risk rating.

Supports FEMA checklist item B2-c: repetitive loss properties

Repetitive loss in this county, both definitions

Sources: 1, 4

Definition	Properties	Severe repetitive loss	Properties
Repetitive loss, FMA definition (44 CFR 77.2)	0	Severe repetitive loss, FMA definition (44 CFR 77.2)	0
Repetitive loss, NFIP insurance definition	0	Severe repetitive loss, NFIP insurance definition	0

The state NFIP coordinator's list, the source FEMA's Handbook names, often uses the NFIP insurance definition (second row).

Repeat-flood properties: county total and NFIP communities

Sources: 1, 4

Scope	RL, FMA <i>properties</i>	SRL, FMA <i>properties</i>	RL, NFIP <i>properties</i>	SRL, NFIP <i>properties</i>	Any category <i>properties</i>	Mitigated <i>properties</i>	Currently insured <i>properties</i>
County total	0	0	0	0	0	0	0

County repeat-flood properties by occupancy group: 0 in every occupancy group.

Sources: 1, 4

FMA RL and FMA SRL are the Flood Mitigation Assistance definitions (44 CFR 77.2), the ones the FEMA Local Mitigation Planning Policy Guide cites. NFIP repetitive loss (the FEMA insurance definition) is 2 or more claims over \$1,000 in 10 years, and a property can leave that group once it is mitigated. Also shown: NFIP severe repetitive loss, any category, mitigated and currently insured. The Methods page gives the OpenFEMA field details.

Counts are aggregates of FEMA's public NFIP Multiple Loss Properties file (FEMA's data date 2026-08-02; file version 2026-08-04). No property is identified. County assignment is FEMA's geocode.

In this county 0 properties are FMA repetitive loss but not NFIP repetitive loss, and 0 properties are NFIP repetitive loss but not FMA repetitive loss.

Exact counts; no count suppression.

What this packet is and what the plan adds

This packet is the federal data for the plan's risk assessment (the summary on page 1 says how it is organized); the plan and FEMA's review decide whether each item is met.

The plan adds what only the community has: local data on assets, critical facilities, development and each jurisdiction's impacts; local hazard history, including state-declared emergencies; the mitigation strategy; and adoption.

How the federal data are built: National Risk Index values are FEMA's model, not counts of events. Storm Events is more complete from 1996; zone-level records are placed by forecast zone, not by location in the county. Public Assistance for a jurisdiction is matched by applicant name. The Methods page gives every rule and the known edge cases.

OpenFEMA disclaimer

This product uses the Federal Emergency Management Agency's OpenFEMA API, but is not endorsed by FEMA. The Federal Government or FEMA cannot vouch for the data or analyses derived from these data after the data have been retrieved from the Agency's website(s).
